pj eating monster pattern

The monster eater measures about 22cm wide by 20cm high.

My son needs a place to put his pjs after he changes in the morning. And these days he's obsessed with a book called "Billy and the Mini Monsters" and so we are on a monster theme these days. Monsters are the theme these days in our household and I have to say I love it!

Please be sure to tag me on social media (@anniegurumi) and use #anniegurumi so I can see your Monster. Thank you for enjoying my pattern. Please come by instagram and say hi, I am very active there. :)

Sew eyes above the mouth and cheeks on both sides of the mouth.

Weave in all ends.

Your PJ eating monster is finished! My son loves “feeding” his monster PJs after he wakes up and it’s a great way to have them hidden while the monster makes an adorable addition to any child’s bed.

Thank you for trying out my pattern! I hope you enjoy that it’s a quick and simple make. Holding two strands together really helps you to see the stitches and a technique I’ve learned from my dear friend Mei, from [amigurumei](#).
