Assembly

Place the head above the opening of the body, make sure the trunk is facing forward. Pin it in place and attach the head. Before closing completely make sure you have filled the body/neck firmly. Secure the end.

Attach the legs to the body.

Attach the arms to the side of the body, about two rounds below the head.

Attach the ears on the sides of the back of the head.

The tail is done by cutting 3 pieces of the yarn, appr. 15 cm each. With a needle put them around one stitch on the lower back of the body. Make sure both ends are the same length. Do this with all three pieces, around the same stitch. Braid the tail, make a knot and cut the yarn below.
