Finish the espadrilles

Now that you have all the crochet parts, you only have to assemble all the pieces.

Start with the decoration. As shown in photos, I have sewn a patch on each blade, you can choose any other patch or not put anything, whatever you prefer!

Once the front is finished, sew them to the espadrilles soles with blanket stitch using the extra yarn reserved.

The lower part of my shovel is 11 cm away from the tip of the sole. And the total size of my sole (size 39) is 26.5 cm. Depending on the size of your sole you can calculate the size with a simple rule of three.

Now, sew the back part of the espadrille, also with blanket stitch.

You only have to sew the ribbon, I decorated it at the ends with a small pompom, as shown in photo.

I hope you enjoyed crocheting your lemonade espadrilles!
